TOTAL		23

The Minor in Science Concentration in Toxicology is designed to provide the Living Sciences student with a multidisciplinary approach to finding solutions to current problems in the field of chemical safety, health and the environment. It complements the student's competencies to continue professional studies in Toxicology, Medicine, Pharmacy, Environmental Sciences, Environmental Health, Industrial Hygiene, Biotechnology and Forensic Sciences. Students who come from other disciplines must have passed the GEMA 1200, MATH 1500, CHEM 1111 and CHEM 2212 courses with a minimum grade of C.
