Declaration of a Minor Concentration

The student must complete the requirements of the minor concentration before or at the same time as completing the requirements of the degree. If a student has completed the requirements of his/her program of study, he/she will not be able to declare a minor concentration.

A minimum grade of C in the courses of the minor concentration is required for the corresponding certification. The student will meet the Satisfactory Academic Progress Standard, the Retention Standard, if applicable, and the maximum time allowed to complete your program of study.

If the student wishes to have the minor concentration certified in his/her transcript, he/she must formally opt for it, by filing the appropriate form, in one of the campuses authorized to offer the degree. The student must take at least one course on campus that certifies the minor concentration.

Important Note: Students in the BA in Psychology Program who aspire to complete this minor concentration must select prescribed distributive courses that are required in their baccalaureate that are different from the courses required in this minor concentration.

Effective: August 2023
